BOOK SYNOPSIS

"For use in courses that cover EHRs in Medical Assisting, undergraduate RN and LVN nursing programs, and as a supplement to other allied professional curriculums (including RT, PT, and OT). Also useful for continuing education courses covering EHR." A complete, learn by doing approach to learning electronic health records. Designed to prepare an educated clinical workforce, " Electronic Health Records: Understanding and Using Computerized Medical Records " is the complete learn by doing text and software package for everyone who must use an electronic health records (EHR) system, including doctors, nurses, medical assistants, physician assistants, and other medical office staff. It provides a thorough understanding of EHR tasks and functional benefits that is continuously reinforced by actual EHR experiences. Updated to reflect the latest EHR rules, regulations, and innovations, this new edition contains even more hands-on exercises that use real EHR software to transform theoretical EHR concepts into practical understanding. Also available with MyHealthProfessionsLab MyHealthProfessionsLab for Garte s "Electronic Health Records" is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. The MyHealthProfessionsLab course includes 50% more hands-on, guided and critical-thinking exercises utilizing real EHR software. This new EHR software is cloud-based (no software download required), PC/Mac compatible, and accessible anytime, anywhere. Best of all, activities are auto-graded to save you time and help students progress through their course.
