## BOOK SYNOPSIS

This book contains current and relevant information about the global market-place. Written by an author with multinational and multicultural background, this book is free of cultural bias and therefore provides complete coverage of every issue from every viewpoint. It provides practical ideas for developing an accounting information system for global operations as well as expansive discussions of the importance of cultural and environmental factors. Emphasis is on the tools for making managerial decisions, including extensive use of numerical examples within every chapter to illustrate application of concepts.
