BOOK SYNOPSIS

Complicity is a ground-breaking examination of the legal culpability of the bystander told through the lens of the author's family experiences in the Holocaust. It provides an exploration of three distinct events: the death marches; the German occupation of Holland; and the German occupation of Hungary, all of which allow an in-depth discussion of the role of the bystander in varied circumstances. Through a narrative of his parents' stories, Amos Guiora, Professor of Law at the S.J. Quinney College of Law at the University of Utah, author, and former Lieutenant Colonel in the Israel Defense Force, poses the question of whether there can and should be legal liability in deciding not to act to aid another person in distress. It draws upon a wide range of historical, psychological, sociological and archival material in an effort to determine the legal and moral responsibility of the bystander. Includes book club discussion questions!"
