BOOK SYNOPSIS

Captured in a failed invasion attempt, is a young military officer. Is he interrogated for his knowledge of communication codes, battlefield tactics and military secrets? No, in this setting, a strange tropical monarchy, he is subjected instead to the whim of the Princess and her Dominant cohorts. Examined, selected and most humiliatingly restrained naked by female jailers, the Captain endures an unusual barrage of psychological and physical tests in which he is deprived of all control and coerced into revealing the deepest and most lascivious events of his adolescence. The results? He is deemed acceptable to serve. And the Princess anoints him as a birthday present for her daughter, finally coming of age and deemed to be ready for a plaything of her very own. First, however, certain alterations need to be performed to ensure complete subjugation. And of course the daughter, as an aspiring artist, has an agenda of her own in creating a portrayal of an ancient tradition... the taming of the symbolically virile male. But the Captains past, serving as beast of burden for the strict daughter of a friend, imbues him with the psychological attributes needed to serve. Chris Bellows has once again woven a tale of plot, memorable characters, unsurpassed depravity and ironic ending for the aficionado of D/s literature. This story line entails intense body modification and should be read only by the most enthusiastic readers of D/s erotica.
